I am a passionate Full-Stack Web Developer with a deep enthusiasm for both computer hardware and software. Always excited to study new things and I'm confident in my ability to learn something new and put it into production. I earned a certificate in Full-Stack Web Development from the University of Central Florida, where I built up and improved my skills in the MERN stack, MongoDB, Express.js, React.js, Node.js, and also in JavaScript, HTML and CSS. I enjoy spending my free time familiarizing myself with web development and building new and difficult projects.

## TECHNICAL SKILLS

**Languages:** JavaScript ES6+, CSS3, HTML5, SQL, NoSQL
